LETTER FROM THE EXECUTIVE DIRECTOR

This marks yet another year that the people of Oklahoma Oil & Natural Gas have faced adversity and yet keep working each day to produce the resources that fuel our modern world. Thanks to their continued support, the OERB was able to provide money for education, invest in our communities, and restore land across the state.

We are passionate about fostering the next generation of energy innovators through science and math grants and scholarships. From increasing the monetary amount of our college scholarships to expanding workshop offerings, we have continued to invest in the future.

Our land restoration is unmatched by any other state or industry in the nation. Well sites left behind between 50 and 100 years ago are being voluntarily addressed by today's producers and royalty owners. To date, the people of Oklahoma Oil & Natural Gas have contributed more than \$135 million to this initiative, resulting in thousands of acres of useable land, grazing pastures or ponds.

With nearly \$200 million invested in education, communities, and land restoration since 1993, the OERB is a true testament to the more than 2,500 producers and thousands of royalty owners in Oklahoma. Through their voluntarily contributions, we can carry out the mission to empower unlimited opportunity for all.

Mindy Stitt, OERB Executive Director

BOARD OF DIRECTORS

The OERB is governed by an unpaid 21-member board. Representation is divided between independent oil and natural gas companies, major oil and natural gas companies, petroleum purchasers and royalty owners.

David D. Le Norman- Chairman
Reign Capital Holdings LLC

Kristin Thomas- Vice Chairman
Continental Resources

Shilpa Abbitt- Secretary

LAND RESTORATION

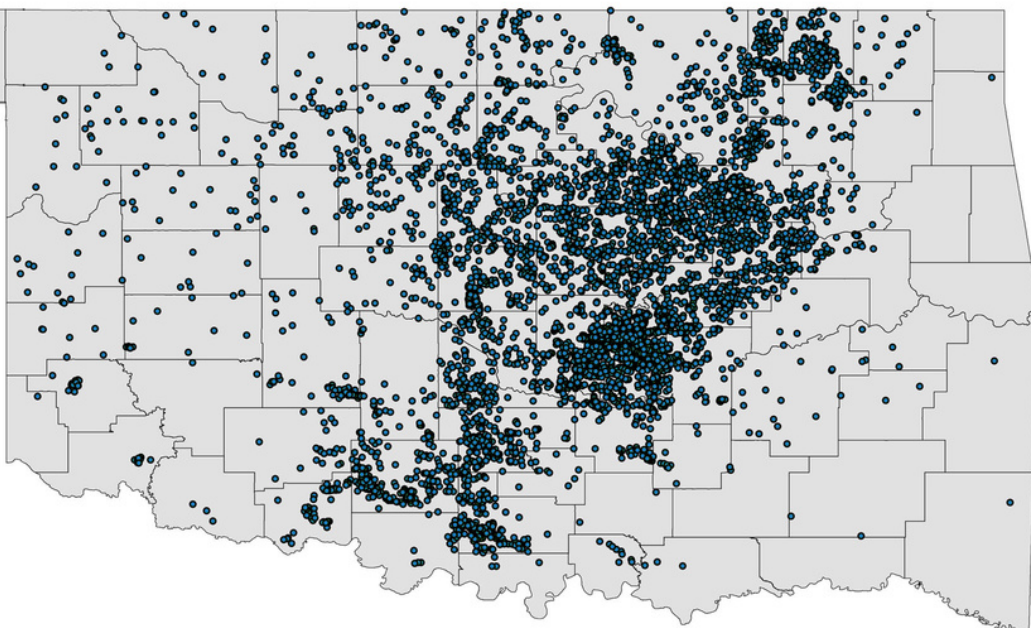

For more than 25 years, Oklahoma's oil and natural gas industry has been committed to cleaning well sites left behind decades, even a century, ago. This mission was put into motion by industry leaders in 1993 and the state remains the only one in the nation with a voluntary program of its kind. Today's oil and natural gas producers are dedicated to restoring land in the state we call home.

\$138,743,971

INVESTMENT IN RESTORING
OKLAHOMA LAND

18,436 sites reclaimed
to date

No accidents reported across all contractors.

2021 HIGHLIGHTS

Capitol Project

For 79 years, a historic oil and natural gas artifact has been located near the south steps of the Oklahoma State Capitol. It has been an illustration of the heritage of oil and natural gas industry in Oklahoma, which has driven our economy for more than 100 years. The artifact includes equipment associated with a well from 1942 that produced more than 1.5 million barrels of oil and 1.6 billion cubic feet of natural gas. In 1986, the well was plugged and donated as a historical artifact to the Oklahoma Historical Society.

This year, the OERB partnered with Phillips 66 to remove the artifact so the space can be repurposed by the state. The work was completed at no cost to taxpayers and through voluntary funding from the people of Oklahoma Oil & Natural Gas and Phillips 66.

STUDENT (PRIMARY) EDUCATION

Since 1996, education has been a core mission of the people of Oklahoma Oil & Natural Gas. We are committed to investing in the next generation of innovators and gamechangers. Through teacher resources, grants, field trips and STEM Camps, the OERB continued to make an impact in 2021.

2021 HIGHLIGHTS

STEM Maker Camps

The people of Oklahoma Oil & Natural Gas sponsored science, technology, engineering and math (STEM) camps for more than 300 students in 2021. Led by Engage Learning, a student-driven STEM program, sponsored by the OERB, 26 Oklahoma classes were provided access to immersive engineering and design camps.

The STEM Maker Camps are led by an experienced team of Engage Learning coaches and include activities like electrical circuits, coding, digital design, and 3D-printing. The lessons are designed to develop the critical skills of creative problem-solving, critical thinking, collaboration and communication.

These fourteen school districts hosted camps in 2021: Anadarko, Norman, Lawton, Yale, Ketchum, Blue Jacket, Newcastle, Deer Creek-Lamont, Clinton, Cleveland, Maysville, Sayre, Bethel and Central Intermediate.

Petroleum Scholarships

Through funding from the people of Oklahoma Oil and Natural Gas, students majoring in petroleum-related fields at the University of Oklahoma, the University of Tulsa, and Oklahoma State University have an opportunity to get scholarships each year.

SAFETY PROGRAMS

Road Safety

The OERB Road Safety program aims to bring together community leaders, energy providers and safety supporters who are committed to positively impacting driver safety in communities where we work and live. Below is the list of road safety events held in 2021:

- Blanchard High School Road Safety Day
- Blaine County Road Safety Day
- Road Safety Day with Okla. FCCLA- McAlester
- Road Safety Day with Okla. FCCLA- Broken Arrow
- Road Safety Day with Okla. FCCLA- Duncan
- Road Safety Day with Okla. FCCLA- Enid
- Road Safety Day with 4-H NE District- Gore
- Road Safety Day with 4-H SE District- Ada
- Road Safety Day with 4-H Western District- Elk City

Well Site Safety

In 2021, the OERB launched a new well site safety public awareness campaign. The commercials educate kids and their parents that well sites are not play sites and that only trained professionals can enter. See the commercials at OERB.com/safety.

PRODUCER EDUCATION

The mission of the OERB's Committee for Sustaining Oklahoma's Energy Resources (SOER) is to encourage new processes and technological advancements to sustain the oil and natural gas industry in the future for the benefit of the citizens of Oklahoma, and to advance activities to support marginally producing oil and natural gas wells. SOER's workshops, roundtables, technology grants and the successful Oklahoma Oil & Gas Expo serve to carry out the mission to support our state's small producers.

OKLAHOMA OIL & NATURAL GAS

EXPO

PRESENTED BY SOER

The Bennett Event Center at the OKC Fairgrounds was packed with service providers, producers and industry leaders during the 24th Annual Oklahoma Oil & Natural Gas Expo.

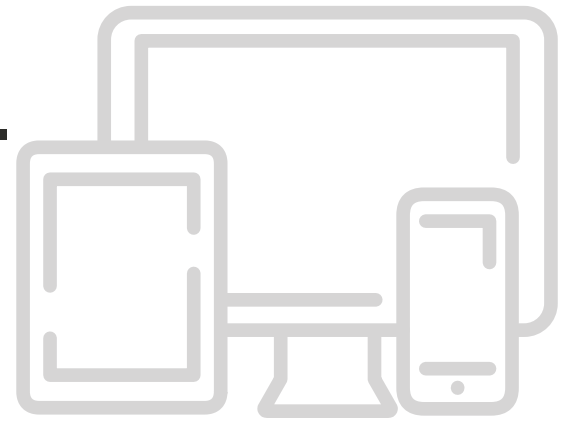

Presented by the Oklahoma Energy Resources Board's (OERB) Committee for Sustaining Oklahoma's Energy Resources (SOER), the popular event continued its record of success with more than 2,000 attendees. Nearly 200 exhibitors showcased the newest innovations, technologies and equipment which have helped the oil and natural gas industry increase efficiencies and produce the resources that fuel our quality of life.

This year's event featured opening remarks from Secretary of State Brian Bingman. Chappell Supply was the Legacy Sponsor.

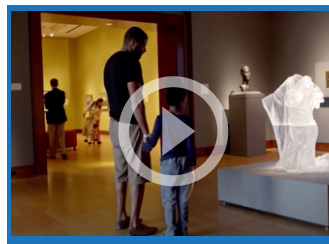

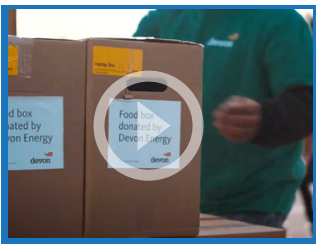

PUBLIC EDUCATION

The people of Oklahoma Oil & Natural Gas are doing extraordinary things. In 2021, the OERB created new messaging to educate the public about how integral the oil and natural gas industry is to our state and communities.

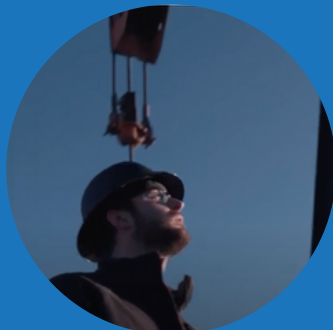

Released at the beginning of 2021, a series of four commercials highlighted the industry's impact on the state through philanthropic support. From the largest non-profits, like The United Way and the Regional Foodbank of Oklahoma to Allied Arts, the people of Oklahoma Oil & Natural Gas provide significant funding.

The OERB also launched a commercial called "Contributions" which is a testament to the legacy of the oil and natural gas industry on Oklahoma's healthcare landscape. From Dean McGee to the St. Francis Healthcare system, the people of Oklahoma Oil & Natural Gas have donated millions of dollars to fund state-of-the-art medical facilities that provide top-quality care to all Oklahomans.

Sponsorships

The people of Oklahoma Oil and Natural Gas collectively supported these organizations, schools, and events in 2021:

- Garvin County Stock Show
- OSSAA- State Basketball Championship
- Bixby science and math grant
- Crossings Christian science and math grant
- Edmond Memorial science and math grant
- Fort Gibson science and math grant
- Howe science and math grant
- Hydro science and math grant
- Kingfisher science and math grant
- Kiowa science and math grant
- Lawton MacArthur science and math grant
- Roff science and math grant
- Roland science and math grant
- Sapulpa science and math grant
- Silo science and math grant
- Varnum science and math grant
- Oklahoma Youth Expo & Ag Mechanics Contest
- Grady County Stock Show
- Blanchard High School Road Safety Day
- Blaine County Road Safety Day
- OSSAA- Baseball State Championship
- Jenks science and math grant
- Carl Albert science and math grant
- Heritage Hall science and math grant
- Holland Hall science and math grant
- Silo science and math grant
- STEM Maker Camp-Newcastle
- Tri-city Chamber of Commerce
- Blanchard High School Live Streaming
- Road Safety Day with Okla. FCCLA-McAlester
- Road Safety Day with Okla. FCCLA-Broken Arrow
- Road Safety Day with Okla. FCCLA-Duncan
- Road Safety Day with Okla. FCCLA-Enid
- OKC Memorial Marathon- Safety Net Runners
- Road Safety Day with 4-H NE District-Gore
- Road Safety Day with 4-H SE District-Ada
- Road Safety Day with 4-H Western District- Elk City
- First Responder Training- Stillwater Fire Service Training Center
- OU Football Points for STEM grant to Anadarko Public Schools
- OSU Football Points for STEM grant to Drummond Public Schools
- OSSAA- State Football Championship
- Deer Creek science and math grant
- Holland Hall science and math grant
- Marlow science and math grant
- McAlester science and math grant
- Ringling science and math grant
- Tuttle science and math grant
- Union science and math grant
- Tulsa Regional STEM Alliance (TRSA)
- 4-H Geology Project Scholarship
- Engage Learning STEM Maker Camps Sponsorship
- Discovery Lab- Tulsa
